

Alto Height Adjustable Leg System

The Alto height adjustable leg system has a simple and delicate design which creates a minimalistic sleek appearance.

The Stable frame structure has a big load capacity, while meeting the requirements for a safe working environment while maintaining it's sleek design.

Designed for quiet office environments with low decibel output.

Options

- Leg Systems available in black or white
- Bluetooth controller – for leg system operation from within App
- Cable tray available for Back-to-Back Leg System
