

M22

The M22 combines comfort, aesthetic styling and functionality. It delivers a height adjustable mesh back which provides a flexible and breathable surface, due to the latest 3D knit mesh technology.

Boasting a new breed of synchronised mechanism technology that gives enhanced geometry and ensures the user of complete comfort throughout its range of movement.

Features:

- Thoracic support
- Height Adjustable Back
- A diverse range of mesh colours available
- Intuitive synchronised mechanism
- 70mm sliding seat
- S14 Seat – This new innovation provides a suspended membrane sliding seat which ensures ergonomic comfort and support.

Options

- Fixed arms
- Height adjustable arms
- Multifunctional arms
- Polished aluminium base
